TO MAKE THE STORY WHEEL

*The help of an **adult** may be needed when cutting and assembling the story wheel*

Print out the story wheel page onto card.
(160-250 gsm copy card is suitable)

Colour in both pieces then cut them out.

Join the top piece to the bottom using a split pin through the centres (marked with a ●)

To avoid getting spiked by the split pin as it goes through the card place a ball of sticky tack, plasticine, playdough or an eraser underneath.

N.B. You may find you need to make a pilot hole first with the point of a drawing pin.

FOR GROUPS

For those who finish before the others use the colouring page for younger children and the word search for older children.
